

LET'S TALK TRASH

Key facts and information on this topic are as follows:

- ✓ The trash generated here at Schuss Mountain is from all of us as property owners. As such we have a duty to dispose of it in accordance with local rules and regulations just as we do at our primary residences.
- ✓ Whether it be here or at our primary residence, most of us see a device used to collect trash for weekly pickup. For those who have objected to view such devices here, we respond to you; garbage collection and containers are a part of daily life here as well at your primary residence. Our decisions about collection are based upon this reality.
- ✓ Trash pickup has been, and continues to be, a service provided by Custer Township using our tax dollars. It is our duty as property owners to abide by their rules and regulations for the service they render and pay for.
- ✓ It is most obvious to all of us the former location of dumpsters was grossly abused not only by outsiders but by your friends, neighbors and members of SMPOA. For a variety of reasons, including health and safety concerns, Custer Township removed those dumpsters and moved to “curbside” service to most property owners and individual

dumpsters for condo complexes. The transition was made by Custer Township following lengthy discussions with SMPOA.

- ✓ Shanty Creek Resorts does not generate our trash, nor do they have a duty to dispose of it for us. They dispose of any and all trash they generate at their own expense. They have no obligation to Schuss Mountain Property Owners to dispose of, pay for, or direct Custer Township in the collection and disposal of our trash.
- ✓ SMPOA has been designated as the voice to the resort for all Schuss Mountain Property Owners should any trash collection issues develop.
- ✓ SMPOA representatives have spent an inordinate amount of hours with Custer Township officials, American Waste, association representatives and Schuss Mountain Property Owners to make the transition of curbside service from the former dumpster collection point which became known as the "SCHUSS DUMP".

It behooves all SMPOA Property Owners, be it homeowners or condo owners to know the location designated for your trash pickup and restrict the disposal of your bagged garbage to your assigned location as well as abiding by all rules set forth by Custer Township.
